

## Brainstorming & Idea Prioritization Template

|                      |                                   |
|----------------------|-----------------------------------|
| <b>Date</b>          | 28 June 2026                      |
| <b>Team ID</b>       | XXXXXX                            |
| <b>Project Name</b>  | Personalized Networking Assistant |
| <b>Maximum Marks</b> | 3 Marks                           |

**Step 1: Brainstorm and Idea Listing** Each team member lists out as many ideas as possible without judging them at this stage.

| S.No | Team Member                      | Idea / Suggestion                                                           | Category        | Group No. |
|------|----------------------------------|-----------------------------------------------------------------------------|-----------------|-----------|
| 1    | Pattupogula Himasree             | AI Career Guidance Assistant                                                | Career Guidance | 4         |
| 2    | Depuru Sitarama Sai Vasista      | AI Resume Analyzer                                                          | Recruitment     | 3         |
| 3    | Palabathuni Padmini              | Smart Interview Preparation Assistant                                       | Education       | 5         |
| 4    | Palabathuni Padmini              | AI Event Recommendation System                                              | Recommendation  | 5         |
| 5    | Pattupogula Himasree (Team Lead) | Personalized Networking Assistant using Google Gemini API and Wikipedia API | Generative AI   | 1         |

## Step 2: Idea Prioritization

Rate each grouped idea on feasibility and importance, then select the final idea(s) to move forward with.

| Group No. | Final Idea                                                                  | Feasibility (High/Medium/Low) | Importance (High/Medium/Low) | Priority | Selected (Yes/No) |
|-----------|-----------------------------------------------------------------------------|-------------------------------|------------------------------|----------|-------------------|
| 1         | Personalized Networking Assistant using Google Gemini API and Wikipedia API | High                          | High                         | 1        | Yes               |
| 2         | AI Career Guidance Assistant                                                | Medium                        | Medium                       | 2        | Yes               |
| 3         | AI Event Recommendation System                                              | Medium                        | Medium                       | 3        | Yes               |
